

Thank You

Presented to

Phil Hawthorne

In recognition of the incredible work that was done in creating the Red Cross Emergency Services web site as a Swinfield team member, while a student at Swinburne.

The software you developed has allowed Red Cross Emergency Services to respond to emergencies more efficiently. The design is excellent, the communication was fantastic and you have added immeasurable value to the organisation through your contribution.

Your ability to communicate, respond and facilitate as a team leader was also quite exemplary.

Jude Rus
Project Officer Emergency Services
